## DIMENSIONAL SHAPES

artwork by Howard Hersh

TR46520-DS (detail)

STUDIO E/L presents Howard Hersh's *Roundabout* series, featuring warm colors, sharp angles and shapes as our new *Dimensional Shapes* art option. We use a CNC router to cut the exact shape the artist originally created. What a statement piece!

Hersh's artwork is enhanced by this fresh presentation as a single piece, or a diptych or triptych you create by mixing and matching his works. Ideal for placement on an important focal wall in hospitality or corporate settings.

Our *Dimensional Shapes* can be printed on Acrylic, Brushed Silver Aluminum, Smooth White Aluminum, Birch, or our popular Glossy Laminate Acrylic (GLA) option. Each substrate seems to float about an inch from the wall via a hidden frame or "invisible" standoffs. Regardless of substrate, these floating *Dimensional Shapes* are intensified by shadows generated by ambient lighting.

Bring new life to any key location with *Dimensional Shapes*, available for the first time from STUDIO E/L.

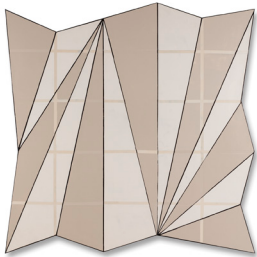

For more information, contact your STUDIO E/L sales representative.

Our **Dimensional Shapes** can be printed on Acrylic, Brushed Silver Aluminum, Smooth White Aluminum, Birch or our popular Glossy Laminate Acrylic (GLA) option.

**Note:** The images themselves are flat.

## DIMENSIONAL SHAPES

artwork by Debbie Wolff

TR46525-DS

STUDIO E/L presents Debbie Wolff abstracts as precision-cut, mix-and-match puzzle-piece shapes. Wolff's free-flowing movement and calm is enhanced by this fresh presentation of a single piece, or diptych or triptych you create for placement on an important focal wall. Ideal for hospitality or corporate environments.

Our *Dimensional Shapes* can be printed on Acrylic, Brushed Silver Aluminum, Smooth White Aluminum, Birch, or our popular Glossy Laminate Acrylic (GLA) option. Each substrate seems to float about an inch from the wall via a hidden frame or "invisible" standoffs. Regardless of substrate, these floating *Dimensional Shapes* are intensified by shadows generated by ambient lighting.
