Consulting
Publishing
Design
Framing
Installation

Studio E/L Healthcare serves the project specific demands of the healthcare design industry. We are committed to cultivating healing environments through art and visual experience. Direct relationships with artists, in house publishing, manufacturing capabilities, design expertise and customer care set Studio E/L apart, bringing all aspects of art consulting under one roof. A carefully curated image collection emphasizes stress-reducing artwork for hospitals, medical suites and offices, as well as senior living communities and memory care.

Consistently developing new art finishing options, Studio E/L Healthcare provides products within parameters of most health and safety regulations. Edge Framed Canvas is a puncture resistant, framed canvas that is finished with an extra layer of varnish for durability. The PanelScape collection of multi-paneled artworks suits large public spaces. And finally, our Dimensional Artworks are designed with multiple substrates layered to create sculptural art options.

At Studio E/L Healthcare, we make this inspired concept a reality!
